Re: Conflict Metals

Microspace Instruments is aware of the Dodd-Frank Wall Street Regulation and Consumer Protection Act in regards to "Conflict Metals".

Currently gold and tin in the form of plated coatings required by certain customer specifications are the only minerals on the list of "Conflict Metals" that are incorporated into our products. Microspace Instruments will only purchase gold or tin plating from suppliers certifying gold and tin sources not to be from the Democratic Republic of the Congo or any of its adjoining countries (Rwanda, Burundi, Uganda, Sudan, Central African Republic, Congo, Angola, Zambia, Tanzania).

Sincerely,

A handwritten signature in blue ink that reads "Kyle Bennett". The signature is fluid and cursive, with the first name "Kyle" being more prominent than the last name "Bennett".

Kyle Bennett
Vice President Microspace Instruments, Inc.
